DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/06/2005 has been entered.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Proudfoot et al. (U.S. 5,098,438).

Note that Proudfoot et al device is inherently capable of performing the method steps of resection by a diamond surgical knife of meridional fibers of ciliary muscle of or serrate between places of attachment of rectus muscles; leaving intact areas of anterior ciliary arteries and long posterior ciliary arteries; decreasing blood flow in the posterior choroids; eliminating hermostasis of posterior ciliary arteries and its branches; improving blood supply of the optic nerve; and improving blood supply of the ciliary body and iris.

2. Applicant's arguments filed 06/06/2005 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 7 and 9 have been considered but are moot in view of the new ground(s) of rejection..
